

Hi,

My name is Wini and I am going to be a 3<sup>rd</sup> year AI and Comp Sci student next year. I've been attending a lot of Hoppers event since first year and I have always enjoyed them. That's why I want to join the committee. I want to help organise events that not only benefit women (or anyone else) in the major by providing information, but also ones that create a space for people to meet and make new friends with the same interests. If I get a role, I will work hard along with the rest of the committee to maintain the quality that Hoppers has been offering and find ways to improve. Although I have never been in a committee in Uni before, I have the skillset that is needed. I am hard working, a team player, good at communication, and most importantly I am responsible.

Thanks for listening (reading), and please give me a vote~
