Sarah Kayser

About me

Hi, my name is Sarah and I am running for the position of Head of Media! I study Artificial Intelligence and Software Engineering and I'm currently at the end of my second year.

I decided to start volunteering for Hoppers halfway through my second semester at university.
During the past year, I have been part of the Hoppers committee as a media coordinator. I'd love to take my work to the next level during the upcoming year and be the Head of Media.

Why I am suitable for the position

I love planning and the organisational side of things as well as being creative. The work I would have to do as the Head of Media combines those two areas because I would have to coordinate everyone's work in the sector and make sure that everything gets done on time as well as create content for social media and post it.

Since I have been a member of the media sector for the past year, I know exactly how things work in the sector and what needs to be done. Thus, I would be able to utilise my experience to split the tasks in the sector according to the media coordinators' preferences and abilities in order to optimise the media sector's work: up-to-date and eye-pleasing information about the events and the society itself on all social media accounts!
